## Programming & Record/Playback Features

### **Hi-Fi Stereo Sound with Built-In MTS/SAP Decoder**

Record stereo videotapes from stereo sound sources and playback pre-recorded hi-fi stereo tapes in hi-fi stereo sound—with an excellent 90dB+ dynamic range—through a stereo-equipped TV or regular TV and stereo hi-fi home audio system. The built-in MTS/SAP decoder allows reception and recording of off-air television stereo broadcasts and second audio program transmissions, where available. Back-up memory logic retains the cable channel guide map indefinitely even during a power failure or when the VCR is disconnected from its power source.

### **VCR Plus+™ Programming**

Simplifies VCR programming by allowing you to simply enter PlusCode® programming numbers found in many published television listings. When recording begins, your VCR automatically selects the proper TV channel and program length. Back-up memory logic retains the cable channel guide map indefinitely even during a power failure or when the VCR is disconnected from its power source.

### **Auto DBS RecordLink™**

If you own a satellite dish, this is the feature you've been waiting for. Set your DBS receiver to turn on and tune in to a specific program and it will automatically turn on the VCR in the record mode and then turn off when the DBS receiver turns off. The secret is in the A/V input jack panel. It senses the presence of a video signal...and the rest is history.

### **One-Touch Record**

### **8-Event/1-Year Smart Programming**

### **Remote Control Onscreen Menu Programming**

## Picture

### **4-Head, Double Azimuth Design**

Combines direct drive cylinder and capstan motors with precision digital servo control to produce excellent special effects reproduction—Still, Slow, and with the appropriate remote control, Frame Advance, Variable Slow Motion and x2 Play—in both SP and SLP speeds.

### **Digital Auto Tracking System**

### **Auto Head Cleaner**

## Convenience

### **SmartClock™**

This menu-driven feature automatically maintains the correct time, regularly checking and updating the time if necessary. It also resets the clock after a power failure. The menu-driven time zone feature allows selection of appropriate time for those who live in a time zone other than that of their CATV service provider.

### **Daylight Savings Timer**

This menu-driven feature automatically compensates for Daylight Savings Time changes in early April and late October so you don't have to reset the clock twice a year. Simply activate the Daylight Savings Time option in the Set Clock menu and forget it!

### **Automatic Channel Setup**

The VCR tuner scans through television frequencies, automatically storing active broadcast channel into memory. Then, only active channels programmed into memory are tuned using the CHANNEL ▲ ▼ buttons on either the remote or front panel of the VCR. Automatic channel preset can be repeated whenever desired, should new channels become available. Channels can be manually added or deleted.

### **Gold-plated Front Panel Audio/Video Inputs**

### **181-Channel FS Tuning**

### **Clock/Function Display**

### **Bilingual (English/Spanish) Onscreen Function Display**

### **Record End Search**

### **Onscreen Real-Time Counter with Time Search**

### **Timer/Programmer Back-up System**

### **Quick Search**

### **Repeat Play**

### **Quick Start Mechanism**

### **Audio/Video Input/Output Jacks**

## Special Effects

### **Variable Slow Motion**

View SP or SLP video recordings in slow motion in both forward and reverse modes. Slow motion speed can be adjusted from 1/5th to 1/60th normal speed in either direction.

### **15x Forward/Reverse Latching Search**

Search in forward or reverse mode at 15 times normal playing speed in SLP. The Latching Search feature provides continuous forward or reverse search with a single touch of the control. A second touch stops the search operation and returns the unit to the Play mode.

### **Skip Search**

This feature allows short-distance "hops" in playback making it easier to find those elusive, previously recorded scenes. With just one touch of the Frame Advance button on the remote you can fast forward the tape for 30 seconds and then return to the Play mode automatically.

### **x2 Play**

### **Index Search**

## Remote Control

### **Remote Locator™**

Lost or misplaced remotes are easy to find! Simply press the POWER button on the VCR. The words "Locating Remote" appear on the screen, and the remote control beeps—leading you right to it.

### **Backlit LED Remote Control**

### **VCR/Universal TV/CBL/DBS Remote**

## Full Auto-Feature Package

- Power On
- Digital Auto Tracking
- Auto Play
- Auto Repeat
- Auto Rewind
- Auto Eject
- Auto Power Off
